Penetration Test — Scope & Authorisation Form

Written permission is required before any security testing begins. Complete, sign and return this form to your VictorDev engineer.

Reference: VD-PT-2026-OGMUGF · Generated: 24 Nov 2026

1. CLIENT & AUTHORISING PARTY

Organisation _____

Authorising person _____

Role / title _____

Email _____

Phone _____

By signing, the above person confirms they are authorised to permit security testing of the systems listed in Section 2 on behalf of the organisation that owns or operates them.

2. SYSTEMS IN SCOPE

List every domain, IP range, application or system that VictorDev is permitted to test. Anything not listed here is strictly out of scope.

Targets (URLs / IPs) _____

_____

Environments Production ☐ Staging ☐ Other: _____

Test type Black-box ☐ Grey-box ☐ White-box ☐ Authenticated ☐

3. TESTING WINDOW & RULES OF ENGAGEMENT

Permitted start _____ End _____

Permitted hours _____

Emergency contact _____

1. Testing is limited to the systems in Section 2 and the window above.
2. No denial-of-service, destructive, or data-exfiltration testing unless explicitly ticked and initialled: ☐ ____
3. Social-engineering / phishing of staff is **excluded** unless agreed in a separate signed annex.
4. VictorDev will stop immediately if asked, or on discovering a critical issue that risks availability or data.
5. Any data accessed during testing is handled confidentially and destroyed after the report is delivered.

4. AUTHORISATION

I confirm that I am authorised to grant this permission, that the organisation owns or has the right to permit testing of the systems in Section 2, and that I authorise VictorDev Company Ltd to perform the security testing described above within the agreed window.
